Level II conference, May 5, 2026, 9:58 AM

Athletic Office, 7210 Stadium Lane, Frisco. Hearing officer: Deidra Rucker, Associate Director of Athletics. Grievance: advancement criteria, Iron Horse Aquatics.

Transcript made by transcription software from my recording of the conference. Ms. Rucker announced at the start that she was also recording it. Speaker labels were assigned by the software and are not always correct. Wording may differ slightly from the audio. My son's name is replaced with [my son], and one personal detail about a staff member's family is removed. Nothing else is changed.

Speaker 1:
"Okay, go ahead now. Go ahead and repeat your" [1]

Speaker 2:
"All right. Hello. I will be recording the Level two Appeal Conference for the record and to ensure that all the information you share with me today is accurately captured." [2] "And so now I will begin recording. Okay. Today is May 5th, 2026, and the time is 9 58. My name is Deidra Rucker and I'm the Associate Director of Athletics." [3] "I'm the level two administrator designated to serve as the hearing officer for this matter. We're meeting to consider level two appeal and the request from Mr. Jordan." [4] "This meeting will take place at the athletic office. The address is 72 10 Stadium Lane, Frisco, Texas 7 5 0 3 3, and it is being held in accordance to the ISD board policies and the administrative complaint process. Please be advised that if you add additional allegations, requested remedies, or evidence in your level two appeal filing or during today's conference that were not presented at level one, this matter may be remanded back and level one for additional fact finding." [5] "A reman will restart the grievance timeline to allow the Level One administrator the opportunity to review the new components of your complaint and then render updated level one findings. At this time, you'll state your name and your role and individual that requested the conference." [6]

Speaker 1:
"Yes. My name is Steven Jordan and I have a son named [my son], who is a student in the Frisco Independent School District, and he's also a member of the Swim team, iron Horse Swim Team." [7]

Speaker 2:
"And this is just with Iron Horse?" [8]

Speaker 1:
"That's correct." [9]

Speaker 2:
"Okay. The purpose of this conference is for the complainant to present information relevant to the appeal of the level one findings issued to you. Following this conference, it will complete a thorough review of the information presented in this conference and any other information may be necessary to resolve the complaint and render a decision regarding the appeal and the requested remedies." [10] "All right." [11]

Speaker 1:
"Go" [12]

Speaker 2:
"Ahead and get started." [13]

Speaker 1:

"Okay. Alright. First of all, thank you for meeting with me. Yes," [14]

Speaker 2:
"Sir." [15]

Speaker 1:
"I appreciate the opportunity to present my appeal at level two. I want to start by clarifying something. I'm not introducing a new issue. I'm clarifying my original request for transparency and advancement criteria." [16] "I also understand that each level of review is intended to provide a fresh and objective evaluation. That is the standard I'm relying on today. To keep this grounded, I will be referencing the Iron Horse Aquatics handbook." [17] "I printed this off from the website on May the third. So everything that I referred to will be based on what was on the website and the Iron Horse Athletics Handbook. Okay." [18] "The purpose of my appeal is simple to ensure that advancement criteria are clear, measurable, and consistently applied. This is not about removing coaching judgment. It is about ensuring that judgment operates within a defined framework." [19] "This handbook provides very detailed structure in many areas. For example, practice schedules are clearly defined, attendance requirements are clearly defined. Participation expectations are clearly defined." [20] "For instance, the handbook specifies minimum attendance percentages such as 80% or 85% depending on the group. Those are clear measurable standards. However, when it comes to advancement, the structure changes In the platinum group, I'm going to use the platinum group as an example." [21] "The handbook states that advancement is invitation only. Emphasize there are no defined criteria in the handbook that explain what is required to receive that invitation. Would you like a minute to find that group?" [22] "Yeah," [23]

Speaker 2:
"I see. Silver." [24]

Speaker 1:
"What page would it take? Look for platinum. I go one more. One more. There you go." [25]

Speaker 2:
"Okay. Alright." [26]

Speaker 1:
"Yes," [27]

Speaker 2:
"Sir." [28]

Speaker 1:
"Yeah. So that's the platinum group, so I'm just using them as an example. Okay. There are no defined criteria in the handbook that explain what is required to receive that invitation." [29] "B, performance standards are referenced but not defined. The handbook references a times, BB times and tags level development. However, it does not define how many times standards are required." [30] "What level qualifies a swimmer for advancement or when those standards result in promotion, clear standards exist elsewhere. In contrast, the handbook clearly defines attendance requirements, participation expectations, and training structure. Those are measurable." [31] "Advancement is not. The handbook also states that swimmers are expected to swim all events. That is a broad expectation. It does not provide a measurable standard for advancement and does not account for specialization." [32] "The handbook includes requirements related to attendance, participation and parent volunteer expectations. These factors are clearly defined, however, they are not objective measures of performance. All this leads to one

central issue." [33] "The handbook establishes detailed expectations in many areas, but it does not establish clearly defined measurable advancement criteria. Once performance data exists, my position is straightforward. Once swimmers have measurable competition times those times provide an objective basis for evaluation." [34] "Advancement criteria must include a minimum of three qualifying time standards or three swim events such as the 5,000 and 200 meter breaststroke at or above BB level performance within the swimmer's strongest events. When those standards are met, advancement should occur. Age may be considered as a supporting factor." [35]

Speaker 2:
"Do you mind repeating that? So you're saying there's three qualifying times standards?" [36]

Speaker 1:
"Yeah. That's" [37]

Speaker 2:
"What you're suggesting?" [38]

Speaker 1:
"Yes. I'm suggesting, I mean, I'm open to suggestions, but I want something that's quantifiable, not at the coach's discretion. So" [39]

Speaker 2:
"Will you repeat that? You said three qualifying times" [40]

Speaker 1:
"Standard standards or minimum. Minimum. I, by the way, I will give you this exactly what my thank you requests are. Okay. Yeah. So you not going to have, there won't be any debate as to what I requested today," [41]

Speaker 2:
"But just so I can understand, it's qualifying times at or above the BB level, correct?" [42]

Speaker 1:
"Yes, ma'am." [43]

Speaker 2:
"Is that just for platinum?" [44]

Speaker 1:
"No, that's for all groups. Now, there's a couple of groups that aren't going to have swim times such as your, I guess they call 'em iron or the entry level. So those would be at the coach's discretion, you don't have any choice at that level." [45] "Okay. But once a swimmer has a swim meet under his belt, then you should start basing your advancement based on those times." [46]

Speaker 2:
"Okay." [47]

Speaker 1:
"Okay." [48]

Speaker 2:
"Yes, sir. And then it's above a BB and then it should be in the swimmer's strongest event." [49]

Speaker 1:
"Yes, ma'am. Okay." [50]

Speaker 2:
"Just making sure." [51]

Speaker 1:
"Yes, ma'am." [52]

Speaker 2:
"Okay, thank you." [53]

Speaker 1:
"The reason for that is that the coaches are insistent on particular events for promotion, and I believe it should be in the swimmer's strongest events regardless of what the coaches are saying. So basically right now, the coaches want to be able to promote based on their discretion and not on results." [54]

Speaker 2:
"Got you." [55]

Speaker 1:
"Okay. So once again, coaching judgment may still exist, but it must operate within a clearly defined framework. Without that framework, there is no way to ensure consistency across swimmers." [56] "The level one response concluded that inconsistency was unsubstantiated. However, it did not define the criteria, how those criteria are measured or how they're applied consistently. The handbook itself does not provide those definitions." [57] "This is a public school program supported by taxpayer resources. Because of that, it is especially important that advancement criteria are fair, transparent, and consistently applied across all students. Clear and measurable standards ensure that all students are treated equally." [58] "Before we conclude, I would like to ask a few specific questions to ensure clarity. Can you identify the specific advancement criteria that are currently used once swimmers have measurable competition times? That question is for you." [59]

Speaker 2:
"I will go back and look at it for" [60]

Speaker 1:
"Sure. Okay." [61]

Speaker 2:
"Yeah, I came in here with an open mind and" [62]

Speaker 1:
"A judgment" [63]

Speaker 2:
"For you so" [64]

Speaker 1:
"I can" [65]

Speaker 2:
"Listen" [66]

Speaker 1:
"And" [67]

Speaker 2:
"Then make sure. So I do understand Iron Horse because it is new And the numbers aren't the same as other programs, that there was a broad decision in order to continue to grow because it isn't just open to public, it is open to anyone." [68] "They just use the facility. So we have kids that are not even associated with Frisco that are not public school kids that have, it's just a club, not something that is there. So I know that as they were building, it's only the fourth year, maybe going into the fifth year that the program has been around that." [69] "Originally when this was set, it was very hard to give a strict criteria of certain things because otherwise in order to build a program, you could potentially lose out on people" [70]

Speaker 1:
"Because" [71]

Speaker 2:
"The program hasn't been built. Maybe another one around the corner that has 800 plus programs." [72]

Speaker 1:
"I understand." [73]

Speaker 2:
"So that's where it was of. I'll look into it to make sure though," [74]

Speaker 1:
"The point I'd like to make here is though they're trying to run this, it's a private club. They've used it as those standards from private clubs. However, this is a club sponsored by a public institution supported by taxpayer dollars." [75] "I" [76]

Speaker 2:
"Understand what you're saying. Yes" [77]

Speaker 1:
"Sir. Yes ma'am." [78]

Speaker 2:
"Okay." [79]

Speaker 1:
"Yeah." [80]

Speaker 2:
"So you're seeing the numbers, or excuse me, their handbook and what they have in place is what a private club program. So if they were private, this would not be a discussion?" [81]

Speaker 1:
"That's correct." [82]

Speaker 2:
"I got you. Yes" [83]

Speaker 1:

"Ma'am." [84]

Speaker 2:
"Okay." [85]

Speaker 1:
"And if I was in a private club, I wouldn't even have taken the time to brought this to the attention. I would've just moved my son to a different club. And sarcastically, Ms." [86] "Howard told me to move my son to a different club. So I was not very happy with her." [87]

Speaker 2:
"Okay. That was from your level one" [88]

Speaker 1:
"Conversation?" [89]

Speaker 2:
"Yes. Okay." [90]

Speaker 1:
"Yes." [91]

Speaker 2:
"So to answer your question, no, I don't know the clearly defined because I knew it was a broad spectrum of what they were trying to do." [92]

Speaker 1:
"Okay. Alright." [93]

Speaker 2:
"And I came in" [94]

Speaker 1:
"With an open, I'll say this, that I hope your level two response commitment is that you'll specifically address where advancement criteria clearly define measurable and consistently applied. Okay. The point I've tried to get across here is in the Frisco school district, a student is promoted from grade to grade based on their grades and whether they attained the level that the school district mandated for promotion, that same standard should exist in this program also." [95]

Speaker 2:
"All right. So let me get this right. So based on the information you presented, it's my understanding the issues raised in your appeal is there is no defined criteria or an explanation in order for someone to be promoted because we are essentially a public institution that is used taxpayers dollars." [96] "So you would like more of a defined criteria in place." [97]

Speaker 1:
"Yes ma'am." [98]

Speaker 2:
"And you can leave coach's discretion and all those things in there, but there needs to be a defined of what you need to get in order to be promoted to the next level." [99]

Speaker 1:
"That's correct." [100]

Speaker 2:
"Okay." [101]

Speaker 1:
"Now, I mean, it's been brought up. She brought up in her response to me that they don't have the resources. Well, there's only two things I could say to that." [102] "One is, stop growing the program if you don't have the resources. Or two, hire the coaches. I've been in the corporate world for many years and I've heard resources as an excuse for all my life, but I understand they said there's over 300 people now in this program." [103] "Well, it just may have outgrown him, but if a person has achieved, made his achievement in his swim times, I don't want them saying this swimmer goes, this swimmer doesn't. If they both have achieved their times, they get promoted. Yes or no." [104]

Speaker 2:
"Let me ask you this" [105]

Speaker 1:
"And" [106]

Speaker 2:
"So I can have a clear explanation. When you were talking about the standards, and it's a minimum, why did you mention the swimmer's strongest event? What if they need them?" [107] "I'm great in freestyle, but they need me embraced. Why do you think it needs to be?" [108]

Speaker 1:
"I did some studies. Does that make sense? Since I've been involved with this, I've done some studies and I actually went and looked at some research papers, and I'm going to have to use my son as an example at this point." [109] "My son is very good at the breaststroke right now. Excellent. And he's hit all his eight times, which is like the top 85% of the country. However, he has not been able to achieve the times that the coaches want and freestyle." [110] "But I did some research and it found that, and I would be glad to send you this bibliography if you would like that. Oh," [111]

Speaker 2:
"I would love it." [112]

Speaker 1:
"Yeah. What it does, it says that there's four main strokes in the swim program, but it said in the breast stroke that kids that excelled in the breast stroke, it was the only stroke in which they had to develop them from the beginning. In other words, they actually had to make an effort to develop them in the brush stroke." [113] "And they're trying to say that the iron horse is trying to say that if you're good in freestyle, you're good in everything. No, that's not the case because clearly kids that are very good in say the fly or breaststroke have developed in certain manners or shape or form and have spent extra time in those strokes developing." [114]

Speaker 2:
"That makes sense." [115]

Speaker 1:

"And they can't just blanket, they're trying to make one blanket statement for the whole program and it just doesn't work. Each student is individuals and they have their own strengths and their own weaknesses. And my son right now is doing extremely, extremely well." [116] "He just had another swim meet where his times were just incredible. I can't tell you how proud I am of him." [117]

Speaker 2:
"Congratulations." [118]

Speaker 1:
"And the reason for this grievance process is that I don't want to have to keep going through this with my son to explain that he's good in one area but not good in several different areas." [119]

Speaker 2:
"Can I ask a question" [120]

Speaker 1:
"When he" [121]

Speaker 2:
"Goes to these meets just so I can have an understanding," [122]

Speaker 1:
"Is" [123]

Speaker 2:
"He only competing in the breaststroke or do they put him in other events?" [124]

Speaker 1:
"Tell me" [125]

Speaker 2:
"How that works." [126]

Speaker 1:
"They will put him in other events, however, he has never achieved the times that they want to see in the other events that he sees in the breaststroke. Now, I want to say this. Each one of the swim meets we've been in his age bracket." [127] "[my son] has always been the top point getter for the team. And the reason for that is because he always comes into the top in the breaststroke and the fly and individual medley. And what's so funny is that's really what promotes the team is their ability to be at the top of the team scores." [128] "And yet [my son] is the top point getter. So the program has got to understand that there's going to be children that have their own individual strengths, recognize that and not penalize 'em because they're not proficient in one stroke over the other." [129]

Speaker 2:
"He's a top point getter and they need to focus on the individual strengths." [130]

Speaker 1:
"Yes." [131]

Speaker 2:
"I appreciate you sharing that information because I did come in here with an open mind to make sure I understood exactly what you were trying to say. I am the one that handles swim, and I handle a high school swim program. So

it's good to know the ins and outs of what you're saying." [132] "Yes. And I would love for you to send it. You got to send it to me immediately because I have a small window, so that way I can use some of that information moving" [133]

Speaker 1:
"Forward. I will. Just to let you know, I use an AI tool called Consensus, which is a tool that's good for research, academic research. By the way, to let you know, I'm highly educated." [134] "I finished all my coursework for my doctorate. I didn't finish my doctorate because I didn't do my dissertation." [135]

Speaker 2:
"And sir, why not?" [136]

Speaker 1:
"But I'm," [137]

Speaker 2:
"Hold on, let's stop there. Why not? You're right there." [138]

Speaker 1:
"I got burned out and I got lazy and I was already advancing in my career and I just didn't finish it. But just to let you know that, and by the way, my doctorate was going to be in EDD in supervision instruction curriculum for higher education. So I'm very well versed in education." [139]

Speaker 2:
"I am on the same path. I wanted educational leadership, but the research part of it" [140]

Speaker 1:
"Took" [141]

Speaker 2:
"Too much time to finish. And I was coaching and doing all that. So I'm kind of kicking myself for not finishing. And I'm telling you, at least one of us need to finish." [142]

Speaker 1:
"Yeah. Well," [143]

Speaker 2:
"I think I've put out too much time." [144]

Speaker 1:
"If you want a future in educational leadership, you have to finish your doctorate. I think that's where you're headed, and I think that's where you need to go." [145]

Speaker 2:
"That's really what I want to do. So I got my undergrad and my MBA stuff from SMU, and so my goal is to finish. I want to get all three from there. The problem is, it is so time consuming to do that, and that's the hard part." [146] "And so I wanted educational leadership. I don't know if I want to leave this space. I still have a son.[personal detail about a staff member's family removed]." [147]

Speaker 1:
"Well, my minor on my doctorate was computer science, and I went and I did" [148]

Speaker 2:
"Information decision systems when I was younger." [149]

Speaker 1:
"And I started doing, I taught college for a while in computers, and then I went into industry and a very successful career. I worked for a company called McAfee for many years and was very successful. And so did my advanced education pay off in the long run." [150] "Yes, it did. Absolutely. That's good to hear. So all I can say is I would highly encourage you if you want educational leadership to go get your doctorate because I think that's just, that's the union card as they would say." [151] "That's what you're going to need. Okay." [152]

Speaker 2:
"But" [153]

Speaker 1:
"Anyway, sorry, we went off course." [154]

Speaker 2:
"You use the AI" [155]

Speaker 1:
"Consensus tool for research. I want the message to get across to the educational leadership here that I'm not the average person that they're dealing with And I'm well versed." [156] "But the bottom line is the school district requires grades for promotion, and why can't they require specifics for promotion within this swim club? And I don't like to think of it as a swim club because it is a public institution. And by the way, where I came up with the BB standards, actually, there's a movement within the private clubs to be more standardized in the promotion, even in the private clubs." [157] "And the theme that kept occurring in all my research was promotion within three different events at the BB level or higher. And so that's how I arrived at those numbers. And that's from private clubs, not even the public." [158]

Speaker 2:
"So what is the standard that USA has since I think we have to follow under them? What is their standard of promotion? Do you know?" [159]

Speaker 1:
"They have none. They have none. And the reason for that, they leave it up to the individual clubs. But USAA basically when I go on their website, it groups everybody by the swim strokes and their times." [160] "So if they're a time, you see it there, if they're aa, aaa. But the bottom line is if you're a bb, you're better than 70% of the country. If you are a time, you're better than 85% of the country." [161] "Now those are passing scores within the Frisco Independent School district. And by the way, my son is a straight A student, and so his standards are much higher than even what the Iron Horse has set. And [my son]'s times were all, in fact, when he left the 10-year-old group, he was at the AAA times." [162] "So that means he was in the top 2% of the country" [163]

Speaker 2:
"For his breaststroke or" [164]

Speaker 1:
"Just over for breaststroke? Yes. Okay. So I mean high. And they did eventually promote [my son], but I don't want to have to go through this again and again, every time I have to go up and say, why isn't [my son] being promoted to the next group?" [165] "And also, I feel sorry for the other kids that aren't being promoted because they're like

[my son], that they've excelled in one swim stroke, but they're not in what the coaches perceive as the proper swim etiquette for promotion." [166]

Speaker 2:
"Will he swim in high school? [my son]?" [167]

Speaker 1:
"That is, he's got two paths. He's looking at either going through the cello and music or swimming. But I'm very confident that [my son] is going to pick swimming." [168] "And I believe that the coach in high school will be very happy to get his swim times and the breast stroke when he swims at the high school level." [169]

Speaker 2:
"Okay. Alright." [170]

Speaker 1:
"Yes." [171]

Speaker 2:
"Okay. So I will say this, I said, pursuant to board policies, I will review the written response. And so please give me the information. So I'll respond to you with an email about it." [172] "But please send me stuff that you want me to look over" [173]

Speaker 1:
"Before" [174]

Speaker 2:
"We get out of here, because technically my window is 10 days" [175]

Speaker 1:
"Of" [176]

Speaker 2:
"Getting a response to you. I'll provide you a written response within the 20 calendar days of the date of this conference, absent extenuating circumstances. As a reminder, in the event of the presented allegations, remedies, or evidence at this conference that were not previously presented at level one, I may remand the complaint back to level one for additional fact finding." [177] "If that occurs, the timelines for the grievance will be extended in reaching a decision. I will conduct a thorough review of the information you presented today and the level one record you have received a fair opportunity to present your complaint today. So I will ask that when we leave here, if there's any information that stays within what your complaint is that you want to share, just shoot me an email and I'll make sure I read that." [178] "I want to honor you for what you request. And I think you've presented some good information that I will have to go back and just research a little bit" [179]

Speaker 1:
"To" [180]

Speaker 2:
"See. Let me ask you this though. Is this something that would be a standard for each? So I just wanted to make sure the senior development, the platinum development, the silver, I just want to make sure that that's what we're expressing, that you want advancement, but it's at every level to see something" [181]

Speaker 1:
"If they have measurable times. So in other words, if a kid's just coming in and he has no measurable, except for" [182]

Speaker 2:
"Those very beginning ones that" [183]

Speaker 1:
"You mentioned, it's going to have to be coach's discretion at that point." [184]

Speaker 2:
"Well, was your first complaint, I understand that you said there was some things said, so I apologize if you felt like you weren't heard in that first one." [185]

Speaker 1:
"Well, it wasn't a matter of being heard. The problem was that I had hoped to actually work with Iron Horse to resolve these issues after the level one meeting. However, her attitude was, why don't you go find a new club?" [186] "And I have that in writing. And no, I'm a public taxpayer and I'm not going to go look for another club because this club is 15 minutes from my house and the only other option would be a 30 minute drive. So I don't want to take [my son] somewhere else." [187] "Plus it is the hope that he goes into the high school swimming in Frisco." [188]

Speaker 2:
"Are you at least happy with Iron Horse? This has nothing to do with it, but are you happy with the exception of that? Are they" [189]

Speaker 1:
"Doing a good job?" [190]

Speaker 2:
"This does not go into our thing. I just want to" [191]

Speaker 1:
"Ask. Yeah. Iron Horse could do a much better job in being competitive with the other swim clubs. I think that there's two or three swim clubs in this area that have very, very high reputations." [192] "One was Texas Ford aquatics, and actually that's where [my son] got his initial training was Texas Ford Aquatics. However, they had his swim times that conflicted with his schedule and I had to move him. And that was why we ended up at Ironhorse." [193] "But I think there are things that Iron Horse could do to be a much better group than they are." [194]

Speaker 2:
"Is it that they are more established?" [195]

Speaker 1:
"That's part of it. But they definitely, Matt Franks has come up with some ideas and I don't agree with all his ideas, and I think he should be held more accountable for the performance of his group in terms of performance when they have these swim meets. So why weren't you number one who's holding him accountable?" [196] "And then the other thing I wanted to say is why isn't there a group that advises Iron Horse, like composed of parents swimmers and coaches, one advisory group?" [197]

Speaker 2:

"Like a board," [198]

Speaker 1:
"Like a board to oversee. And I really think that would remove the school district a lot from this type of issue." [199]

Speaker 2:
"That makes" [200]

Speaker 1:
"Sense. So in other words, you would take it to that board then rather than to take it to the school district. Is" [201]

Speaker 2:
"That something that other programs have?" [202]

Speaker 1:
"Well, like Texas Ford Aquatics, that's private and I think it's for profit. So this is unique in that it's a publicly owned group. So" [203]

Speaker 2:
"Yeah, that makes sense." [204]

Speaker 1:
"Yeah. So there might" [205]

Speaker 2:
"Be some other things that we can or can't do, but" [206]

Speaker 1:
"An advisory group, I would highly recommend it that way. Everybody's had an input into that. But we just had a parent meeting, I don't know, a week or two, and the coaches made clear, you will do this." [207] "You will do this. One of their main requirements is you will participate as a parent. Well, I'm 65 years old, my health is not great, and it's not good for me to stand there for four hours during a swim meet to do timing." [208] "Is that fair to me? No. Is it fair to other parents? My wife has to work every weekend as a real estate agent. She tries to get off her [my son]'s events, but can't always do that." [209] "So I mean, some of their things like you will do this, but when it comes to promotion." [210]

Speaker 2:
"Oh, got you. And then is promotion also dependent on what the parents do?" [211]

Speaker 1:
"No. Yes. Yes. If the parents don't participate, then there's no promotion. And that's baloney. Excuse the expression." [212]

Speaker 2:
"No, they're fair. Okay. I'll look into it. I'm expecting you to email me." [213]

Speaker 1:
"Yes ma'am." [214]

Speaker 2:

"Okay. And I want you to know that you are heard, and I will do my very best to see how we can remedy this. But you also have to understand I got to fall within the lines of what Frisco ISD." [215] "And so I will send you anything else that you need or you have any questions, feel free to ask, but we'll conclude this. But if you don't send it," [216]

Speaker 1:
"I understand. I will. So" [217]

Speaker 2:
"I can look at it." [218]

Speaker 1:
"It will be sent to you today." [219]

Speaker 2:
"It will help guide some of the expectations of what your complaint is about, why things need to be a certain way." [220]

Speaker 1:
"I will be glad to do that. Yes. All right. No problem. Thank you, ma'am. You." [221]
