From: "Stephen Jordan" <srjordan@gmail.com>
Sent: 3/27/2026 8:05:43 PM
To: "Complaint Resolution" <ComplaintResolution@friscoisd.org>
CC: "HOWARD, MELISSA" <howardme@friscoisd.org>

Dear Frisco ISD Administration,

Pursuant to Frisco ISD Board Policy FNG(Local), I am formally submitting this Level II appeal following the Level I response dated March 24, 2026 and subsequent communications regarding the Iron Horse Aquatics program.

I am also including this appeal in light of the most recent response directing me to either work exclusively through the coach or seek placement with another club, which does not address the substantive concerns raised.

1. BASIS FOR APPEAL

This appeal is not related to my son's current placement, which has been resolved.

This appeal addresses a broader and unresolved issue:

The absence of clearly defined, objective, and consistently applied advancement criteria within the program.

Specifically:

- Advancement language such as "invitation only" remains undefined
- No measurable performance benchmarks are published for progression
- Requests for clarification have not been answered with specific criteria
- Responses have redirected away from the question rather than addressing it

2. CONCERN REGARDING RESPONSE

The recent guidance to "contact the coach" or consider other clubs does not resolve the issue presented.

The concern is not about individual coaching communication, but about:

- program structure
- transparency of standards
- consistency of advancement criteria

These are administrative matters, not individual coaching preferences.

3. PERFORMANCE CONTEXT

As previously documented:

- [REDACTED] has achieved **A standards in breaststroke events**
- He is within **3–4 seconds of TAGS qualification** in 100 and 200 breaststroke
- He demonstrates **BB-level performance in multiple additional events**
- His development trajectory indicates near-term progression to championship-level performance

This establishes that he meets recognized competitive benchmarks in primary events.

4. STRUCTURAL ISSUE

The current framework lacks:

- Defined advancement thresholds
- Measurable criteria tied to performance standards
- Clear weighting of stroke performance
- Verifiable consistency across athletes

Without these elements, advancement decisions cannot be objectively understood or evaluated.

5. DISTRICT STANDARD COMPARISON

Frisco ISD applies a standards-based model in academics, including:

- Defined benchmarks
- Measurable criteria
- Transparent evaluation

In contrast, the current athletic advancement model relies on:

- Undefined discretionary language
- Lack of measurable benchmarks
- Limited transparency

This inconsistency raises concerns regarding alignment with district principles of clarity and fairness.

6. REQUEST FOR RESOLUTION

To address these concerns, I respectfully request:

- Definition or removal of "invitation only" language
 - Establishment of objective advancement benchmarks (A, BB, TAGS proximity)
 - Clarification of how performance across strokes is evaluated
 - Written confirmation that criteria are applied consistently across all athletes
-

7. PURPOSE

This appeal is not intended to challenge coaching discretion, but to ensure that such discretion operates within a **clear, measurable, and consistently applied framework**.

Establishing objective criteria supports transparency, reduces ambiguity, and ensures equitable evaluation for all student-athletes.

Please confirm receipt of this Level II appeal and advise on the next steps in the review process.

Sincerely,
Stephen Ray Jordan

Mr. Jordan,
The addition of remedies regarding your original complaint do not constitute an appeal under FNG; however, it does require remanding back to Level 1 to address the newly requested remedies. Ms. Howard will be in contact soon.
Regards,

Dear Complaint Resolution Office,

Thank you for your recent response regarding my Level II appeal.

I respectfully object to the remand of this matter back to Level I.

During the initial Level I conference, I clearly presented two requested remedies:

- Promotion of my son to the Gold group
- Transparency and clarity in the advancement process

These requests were acknowledged on the record during the hearing.

While the first issue regarding placement was addressed, the second issue, transparency in advancement criteria was not resolved.

My Level II appeal did not introduce a new complaint or new remedies. Rather, it clarified the original request for transparency by asking for clearly defined, measurable advancement criteria.

Accordingly, this matter is properly within the scope of a Level II appeal, as it concerns an issue raised at Level I that remains unresolved.

In addition, I have concerns regarding returning this matter to the same Level I hearing officer. Given the prior response directing me to work solely with the coach or consider other programs, I do not believe that further review at Level I will result in a fair or substantive resolution of the outstanding issue.

For these reasons, I respectfully request that this matter proceed to Level II for review of the unresolved issue regarding transparency and advancement criteria.

Please confirm receipt of this request and advise on next steps.

Sincerely,
Stephen Ray Jordan

Mr. Jordan,

Your objection is noted and these emails will be added to the Level 1 record. However, what you have presented as requested remedies is considered additional and more detailed. In accordance with Fisd Board Policy FNG (LOCAL) which states, "If the complainant presents additional complaints, evidence, or requested remedies following the Level One hearing, the complaint may be remanded in order to develop an adequate record of the complaint," your complaint is remanded back to Level 1 to address. After you receive an updated Level 1 Response, if you are in disagreement, you may appeal at that time.

Regards,

Thank you for your response and clarification.

I understand that the matter has been remanded to Level 1 in order to further develop the record.

I would like to clarify that I am not introducing a new complaint or new remedies. My original request at Level 1 included both promotion and transparency in advancement criteria.

While the placement issue has been addressed, the transparency component remains unresolved. My recent communication was intended to further clarify what is meant by transparency, specifically in terms of clearly defined and measurable advancement criteria.

I look forward to participating in the Level 1 meeting to clarify this issue and ensure the record accurately reflects the original request.

Please let me know the next steps and scheduling availability.

Sincerely,
Stephen Ray Jordan

Dear Ms. Howard,

Thank you for your written response dated April 27, 2026, regarding my Level I complaint.

I respectfully submit this email as a formal request to appeal your decision to Level II in accordance with the Frisco ISD Administrative Complaint Process.

My appeal is based on the fact that the response does not address the core issue raised in my complaint, which is the lack of clearly defined, measurable, and consistently applied advancement criteria.

At the Level I conference, I clarified that my request applies to all groups and that once swimmers have measurable competition times, advancement should be based on objective performance standards. I further clarified that this request is not intended to eliminate coaching judgment, but to ensure that such judgment operates within a defined and measurable framework.

The Level I response instead relies on generalized statements regarding coaching experience, variability in standards, and program capacity, but it does not establish or address whether advancement criteria are clearly defined, measurable, and consistently applied.

Additionally, the denial of my requested remedy was based in part on feasibility and capacity considerations. However, those factors do not address whether the current advancement criteria meet the standard of clarity, measurability, and consistency that was the basis of my complaint.

For these reasons, I respectfully request that this matter be reviewed at Level II.

Please confirm receipt of this appeal and advise on the next steps in the Level II process.

Thank you for your time and consideration.

Sincerely,
Stephen Ray Jordan

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Ms. Howard,

Thank you for your written response dated April 27, 2026, regarding my Level I complaint.

I respectfully submit this email as a formal request to appeal your decision to Level II in accordance with the Frisco ISD Administrative Complaint Process.

My appeal is based on the fact that the response does not address the core issue raised in my complaint, which is the lack of clearly defined, measurable, and consistently applied advancement criteria.

At the Level I conference, I clarified that my request applies to all groups and that once swimmers have measurable competition times, advancement should be based on objective performance standards. I further clarified that this request is not intended to eliminate coaching judgment, but to ensure that such judgment operates within a defined and measurable framework.

The Level I response instead relies on generalized statements regarding coaching experience, variability in standards, and program capacity, but it does not establish or address whether advancement criteria are clearly defined, measurable, and consistently applied.

Additionally, the denial of my requested remedy was based in part on feasibility and capacity considerations. However, those factors do not address whether the current advancement criteria meet the standard of clarity, measurability, and consistency that was the basis of my complaint.

For these reasons, I respectfully request that this matter be reviewed at Level II.

Please confirm receipt of this appeal and advise on the next steps in the Level II process.

Thank you for your time and consideration.

Sincerely,
Stephen Ray Jordan

Dear Complaint Resolution Office,

I am formally requesting a Level III appeal regarding the Level II grievance response issued on May 18, 2026, concerning advancement criteria within the Iron Horse swimming program.

I appreciate the time and consideration provided during the Level II process. However, I respectfully disagree with the conclusions reached in the Level II response.

The central issue raised throughout this grievance process has been whether advancement criteria within the program are clearly defined, measurable, and consistently applied across all swimmers once measurable performance data exists.

The Level II response acknowledged that Frisco ISD is not legally required to establish or publish advancement criteria for internal swim group placement. However, my concern is not limited to whether the District is legally obligated to publish such standards. My concern is whether a publicly supported program operating under taxpayer resources should rely on undefined discretionary advancement standards without measurable benchmarks or transparent consistency safeguards.

Throughout this process, I have consistently maintained that:

- measurable performance data provides an objective basis for evaluation
- advancement criteria should operate within a defined framework
- transparency and consistency are important within publicly supported programs
- undefined discretionary advancement structures create avoidable fairness concerns

The issue presented is therefore broader than a disagreement regarding a single swimmer or placement decision. It concerns the governance structure and transparency of advancement practices within the program itself.

I respectfully request Level III review of the following issues:

- whether advancement standards within the program should include measurable and clearly defined benchmarks once competition performance data exists
- whether discretionary "invitation only" advancement structures provide sufficient transparency and consistency safeguards within a publicly supported program
- whether additional governance, transparency, or advisory review mechanisms should be considered for the program moving forward

I further request that the complete Level I and Level II records, including submitted supporting documentation and handbook references, be included as part of the Level III review.

Thank you for your time and consideration. I look forward to continuing through the District's established review process.

Sincerely,
Stephen Ray Jordan

We lost power in the storm yesterday afternoon, and some programs appear to have not rebooted until this morning. Try again to submit a new complaint appealing Level 2 today. Let me know if it still is not working for you. We had a new complaint submitted through the portal this morning, so it appears to be working.
